

About Our Company

Experience Unmatched Elegance and Functionality with Our Windows and Doors Welcome to a world of refined craftsmanship and unparalleled quality at ProView Remodeling. Our windows and doors are more than mere architectural elements; they're a testament to our commitment to transforming your living spaces into havens of comfort and style.

Exceptional Craftsmanship: At ProView, we blend time-tested craftsmanship with innovative design to create windows and doors that stand out. Each piece is meticulously crafted, ensuring not just aesthetic appeal, but also longevity and functionality that exceed expectations.

Dedicated Professional Representatives: From the moment you choose ProView Remodeling, a dedicated professional representative becomes your guide through the entire process. We understand the importance of personalized service, and our representatives are committed to ensuring your vision comes to life seamlessly.

Lifetime Non-Prorated Workmanship Warranty: Our commitment to quality extends beyond installation. ProView proudly backs up its work with a lifetime non-prorated workmanship warranty. This warranty is not only a testament to the durability of our products but is also transferable to the next homeowner, adding value to your investment.

24/7 Free Estimate Scheduling: Your convenience is our priority. Our team of live, English-speaking agents is available 24/7 to schedule your free estimate. We understand that your time is precious, and we strive to make the process of upgrading your windows and doors as smooth as possible. 25+ Years of Remodeling

Excellence: While our location may be new, ProView Remodeling carries the legacy of over 25 years of remodeling experience in Central and Southern Ohio. Our founders have been at the forefront of transforming homes, and now, with a new location, we bring this wealth of experience to elevate your living spaces.

Experience the ProView difference – where elegance meets functionality, and your dream home becomes a reality. Upgrade to windows and doors that redefine your living experience.

Window Features

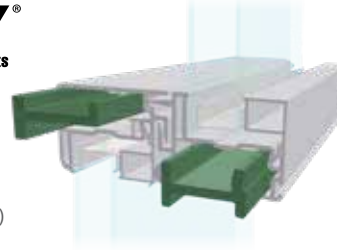

INNERGY®
Rigid Thermal Reinforcements

Features

- Up to 700 times better thermal performance versus aluminum (when comparing materials)
- Resists condensation
- Superior impact performance
- Fiberglass reinforced pultruded product made with resin that is 20% bio-based, made from soy and other renewable resources.

Innergy is the innovative, energy-efficient alternative to aluminum. As the next-generation of thermal reinforcement for the industry, Innergy is able to deliver a quantum leap above aluminum in how windows and doors perform.

* Option - Please request separate brochure for more information on Innergy. Innergy is registered trademark of Deceuninck North America. The color GREEN used in INNERGY is a trademark of Deceuninck North America, LLC.

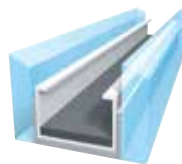

Spacer System

Intercept® "Warm-Edge" spacer system for I.G. units.

Intercept® spacers feature a U-channel design that creates an effective thermal barrier to help reduce conducted heat loss through the window. Its sealed, one-piece design makes Intercept® spacers stronger and better at retaining insulating gas than many conventional designs.

This component is composed of two (or three) panes of glass separated by a spacer that holds panes together, creating an insulating air space. This air space, which is usually filled with air or argon gas, functions as a thermal barrier. In the winter, this insulating barrier keeps the heat inside your home from escaping to the outdoors. The performance of the spacer in the I.G. unit is critical because it helps determine the energy efficiency of your window as well as its longevity.

Premium Platinum Windows

Double Hung

True Position® Balance System: Springs travel with the sash. This allows the sash to operate with significantly less friction and noise. Friction adjusting set screw available to allow adjustment of the brake to eliminate sash drift.

Top & bottom sash tilt inside for safe cleaning with recessed tilt latches

Double sash locks on windows 26" wide and over

Standard half screen, optional full screen

Glider

Our glider windows operate smoothly with brass rollers

Sash lift out for safe and easy cleaning inside the home

Standard operable panel screen[s], optional full screen

Double Hung & Glider

Featuring Heavy Duty Dual Tech Lock

Casement & Awning

Casement and awning stop air infiltration with triple seal

Handle folds into operator cover of casement and awning

Casement multi-point lock secures in up to four places.

Clean casements from inside your home.

Hinged side of sash slides away from frame when opened 90°

Premium Gold Windows

Double Hung

Recessed tilt latches allow both sash to tilt in completely for easy cleaning.

Sash Limit Locks limit sash travel; secure partial opening.

Welded Frame & Sash Corners; strong & seamless.

Integrated Extruded Pull Rails are part of sash extrusions, not added later.

Glider • 2 & 3 Lite

Sash lifts out from inside for easy cleaning.

2 lite - half screen

3 lite - active panel screen[s]

True Position® ½" Balance System
¾" Double Pane Insulated Glass

Double Hung & Glider

Heavy Duty Cam-Style Lock & Keeper secure an air-tight seal.

Casement & Awning

Sash cranks fold into base for a clean look. Sash opens fully with just a few turns. These windows are triple sealed against the weather and can be safely cleaned inside the home. Hinged side of sash slides away from frame when fully opened.

Premium Silver Windows

Double Hung & Glider

Vinyl compound retains its pristine appearance for a lifetime.

Fusion welded frame and sash corners are strong and seamless. Corners are not compromised with knock outs or gaps.

Frames feature attractive bevel detail. Lift rails are part of sash extrusion, not added later.

Recessed tilt latches allow both sash to tilt inside for easy cleaning. Sash limit locks allow secure partial opening for safe ventilation.

Heavy duty, double weather stripping and continuous over/under interlock at meeting rails prevent air infiltration.

Heavy duty sash locks are secure and air tight with cam action lock and keeper. Two locks standard in windows >=30"

Intercept® insulated glass spacer blocks temperature transfer and reduces condensation.

Sloped one piece sill for positive water drain-off no water leaks at the sill.

True Position® ½" Balance System
